Please note that the screen shots in this document are only meant to explain the application procedure and do not provide an exhaustive list of documents you might need for the entrance exam. Our study programmes have individual entrance exams and, apart from the portfolio, they might ask applicants to upload different documents when registering for the entrance exam, which are not listed in this document (e.g. cover letter, CV, ect.). Please see the details you find in the application form for more information.

To participate in the entrance exam held at a university, participants have to fill out a statistical survey of the Austrian ministry of education. As our university does not have access to the data you submit, our ministry of education issues an automatic PDF confirming that you have completed the survey and that they have received your data. Please upload this confirmation in our system, which allows you to participate in our entrance exam.

⚠ Statistics

According to the Educational Documentation Act (Bildungsdokumentationsgesetz) Section 9 §6, in order to participate in an entrance exam hold by a university, first, applicants need to submit a statistical survey to the Austrian ministry of educations.
